- Cattle drenched, stood out for their more obvious Thrive and Bloom.
- Calves treated showed Improved Performance, Vitality and Appetite.

ON FARM TRIAL RESULTS

MALCOLM FLEMING

Magherafelt, Co Londonderry

Finishes 450-500 head per year

"I bought in calves around 300kgs then dosed them with HVS Liquid Gold Cattle®. These cattle had more bloom and appetite, less pneumonia and thrived remarkably well."

"Poor thriving calves dosed with HVS Liquid Gold Cattle® improved dramatically and continued to improve."

"I found HVS Liquid Gold Cattle® free flowing and easy to drench with the back pack."

DR JOHN ORR MBE

Strangford, Co Down

TRIAL supervised by Dr John Orr MBE

"You could pick out the treated cattle by their obvious thrive and better bloom."

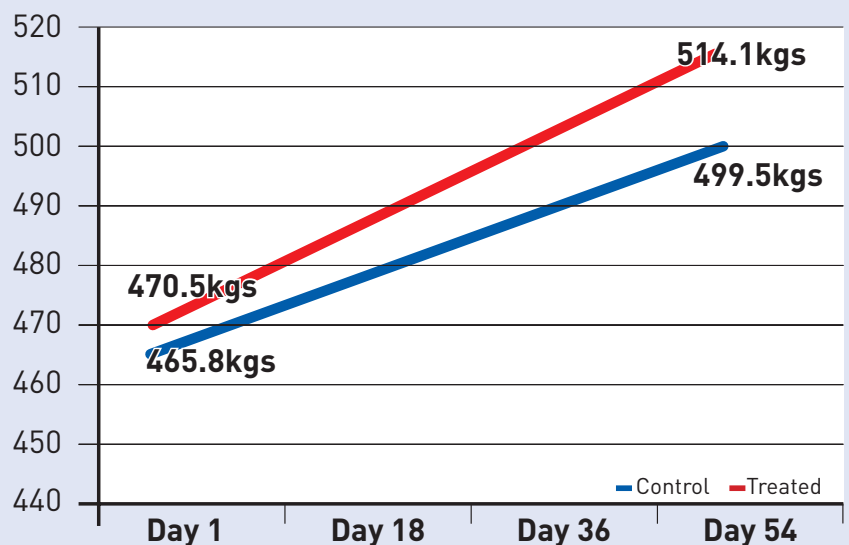

"The improved DLWG more than justified the cost of the product."

"HVS Liquid Gold® was extremely easy to dose through the dosing gun."

Treated v Control

Average Net gain of **9.91kgs** per head in 54 Days.

DLWG increased by **29.4%** more than the Control Group.
